3. Update Operation

Description: The user edited an existing crop record (e.g., changed status or acreage) and the updated record is displayed on the dashboard.

The screenshot displays the AgriSarathi dashboard with a modal form titled "Edit Crop Cycle Details" in the center. The form contains the following fields and controls:

- Crop Name:** A text input field containing "Test Crop Integration".
- Variety:** A text input field containing "Beta-1".
- Crop Category:** A dropdown menu with "Grain" selected.
- Crop Status:** A dropdown menu with "Planted" selected.
- Field Area (Acres):** A text input field with a spinner, containing "25.5".
- Planting Date:** A date picker showing "01-01-2026".
- Expected Harvest Date:** A date picker showing "12-12-2026".
- Buttons:** "Cancel" and "Save Changes" buttons at the bottom of the modal.

In the bottom right corner of the dashboard, a green notification banner states: "✓ Crop cycle created successfully! ✕".

AgriSarathi CRUD Verification (Week 5)

4. Delete Operation

Description: The user confirmed the deletion of a crop cycle. The dashboard verifies its removal from the PostoreSQL database via a
